

Continuing Professional Development

Effective teaching and learning using a SMART Board™

Pre-Course Task

Non-London Events only:

During the afternoon we will be building our own interactive resources. To do this you will need Notebook software installing on your laptop. A free 30 day trial version can be downloaded from www.smarttech.com, click on support, downloads, SMART Notebook collaborative learning software and chose version 10.8.

[Notebook version 10.8 for Windows](#)

London Events only:

You are not required to bring a laptop to this event but may wish to bring along a USB memory stick if you wish to save the resources you produce during the day.

All Events:

Please bring some materials that you have previously used in the classroom such as multi choice questions, PowerPoint presentations or hand-outs that involve team activities. You will have the opportunity to re-purpose the materials you have already created to use with the interactive white board.
