

Scaled mark grade boundaries - June 2012 exams

FSMQ Advanced

Here you can see the scaled mark **unit** grade boundaries for FSMQ Advanced.

All FSMQ units consist of two components and their marks need to be scaled before they are aggregated to the overall unit-level. Only the grade A and E scaled boundary marks are shown for each component as only these are set by the awarding committee. These scaled marks are then added to obtain unit-level grade A and E boundaries, at which point the intermediate grade B, C and D boundary marks are calculated for the unit as a whole. In all instances the unit is listed first, followed by its components (shaded and italicised).

Uniform mark grade boundaries can be found in Appendix A of the [Uniform Marks Leaflet](#)
