

Grade boundaries - June 2010 exams

GCSE

For GCSE Full and Short courses, overall subject-level grade boundaries are shown together with their associated component raw and scaled mark grade boundaries. The scaled mark boundaries take into account the relative weightings of each component towards the overall mark for the subject as a whole. Component grade boundaries for the Functional Mathematics unit of GCSE Use of Mathematics (Pilot) are summarised in a separate table at the end of this document.

Uniform mark grade boundaries can be found in Appendix A of the [Uniform Marks Leaflet](#)
