

## Subject and component grade boundaries - November 2011 exams

### GCSE

For the out-going GCSE full courses in English A (3702), English B (3701) and Mathematics A (4306), overall subject-level grade boundaries are shown together with their associated component raw and scaled mark grade boundaries. The scaled mark boundaries take into account the relative weightings of each component towards the overall mark for the subject as a whole.

GCSE component grade boundaries are also presented for the out-going Mathematics B (4307) and Science (4460) specifications and the new GCSE Science B (4450) specification. Grade boundaries for the Functional Mathematics unit of GCSE Use of Mathematics are presented at the end of this document.

Uniform mark grade boundaries can be found in Appendix A of the [Uniform Marks Leaflet](#)
